

"Allied Services Division"

IMPORTANT HIPAA NOTICE

NPI NUMBER

In 2004, HIPAA adopted a new set of security standards. As part of the new regulation, therapists that bill services to Medicaid or Medicare must apply for a National Provider Identifier (NPI) number. The NPI is a 10-digit intelligent free number that will replace a therapist's current UPIN number.

Please include your NPI number when sending in your completed employment packet. If you do not currently have an NPI number, please apply for one at the following web address:

<https://nppes.cms.hhs.gov>

Therapist Name: _____

Therapist Discipline: _____

Therapist NPI #: _____
